Mad Isle - Debut Album Launch - 20th May 2016 - Gasometer Hotel, Collingwood

As legend has it the **8Foot Felix** passed through a Bermuda-triangle time-portal to arrive in our modern times. The crew of this 18th Century vessel are dedicated to mastering every musical genre they can wrap their ears around. In the five years since their official launch as a band, this raucous ball of sea-soaked ska, funk, gypsy, hip-hop and blues has gained a reputation for setting dancefloors on fire. And finally the first vintage of their endeavours has been harvested, to be launched as their debut album **Mad Isle** at Melbourne's Gasometer Hotel on May 20th 2016.

From their first gig at Melbourne's bohemian epicentre Open Studio in 2011, **8Foot Felix** have demonstrated their passion and flair for transporting their audiences to other realms as they get the feet in the house moving with a mind of their own. This special talent has grown through tours to Nevada's Burning Man Festival, the UK's Secret Garden Party and Boomtown Fair, and over the course of their 5-year headlining of Rainbow Serpent Festival's Friday night on the Playground Stage.

Captured in Sing Sing Studios, and matured like fine wines at the hands of Melbourne producer Cy Gorman, the songs of **Mad Isle** are ready for release into the air waves. To celebrate their launch **8Foot Felix** are crafting an unforgettable night at the Gasometer, with the assistance of a host of creative collaborators, led with splendour by **The Seven Ups**.
